## MSP Branding Benefits

- ▶ **Shape unique identity**  
Rebrand and customize the solution to fully align with your own company's style and brand identity.
- ▶ **Increase brand awareness and build trust**  
Add your own logo and icons, or even rename the solution to help clients recognize you and help them feel more assured about your services.
- ▶ **Full customization**  
White-label your endpoint backup solution, rebrand the control panel and customize email notifications that customers get.
- ▶ **Multiple rebranding**  
Create multiple sets of branded solutions to fit every need of your clients.
